Banks Permitted to Loan on Standing Crops

Ottawa, Ont., Mar. 19.—Just before the adjournment of the house tonight the vote of upwards of \$8,000,000 for the purchase of seed grain for western farmers was passed; also the vote of \$2,000,000 for relief for settlers other than seed grain. These millions went through without much discussion.

The minister of finance moved a resolution to prohibit the bank act from permitting the banks to permit to lend money for purchase of seed grain upon the security of the grain purchased, the crop to be grown therefrom, and the grain threshed from the crop. This amendment is to be discussed to have come into force on the 15th day of the present month, and it expires on August 1 next.

Mr. White explained that the new provision would apply to the owner, tenant or occupier of the land. This legislation was desirable in view of the need in increase of production and in view also of existing financial conditions. The general credit of the borrower would still be the controlling consideration in loans by the bank, but he believed that it would be of value to the borrower to have this privilege, as the banks would be more likely to lend in proper cases where they would obtain this additional security.

Organized a Seed Circle

The attendance at the institute meeting at the Parish Hall on Saturday last was almost up to that of the previous Saturday when W. E. Stevens was the speaker and purchased live stock was the theme. On Saturday, the speaker was Prin. E. A. Howes of the provincial school of agriculture at Vernon and his address was on purchased seed. The speaker, being a director of the Canadian Seed-growers' Association, was an excellent champion of the principles for which this organization stands—self-help, co-operation, the use of the best varieties, a given area by the sowing of purchased, locally naturalized seed on it. This end is to be attained by the organization of a "seed centre" in a neighborhood. The members of a seed centre agree to use only seed registered with the association. An acre is sown and the growing crop is under inspection at intervals by inspectors appointed by the association. By the process of hand-selection only the more vigorous, best-developed heads supply the seed for a similar acre next year and during three years of such grading up, the seed is eligible for registration with the association as a purchased seed. In the meantime the standard of the seed sown on other than the inspected acre has been improving and in consequence an increased productiveness has been achieved. Only the ordinary conditions, as to soil fertility, cultivation and moisture are supposed to obtain and the inducement to the grain-grower to join one of these seed centres lies in the increased productivity rather than in the prospect of abnormal prices to be obtained for seed grain.

After Mr. Howes addressed about 18 farmers of the Claresholm district formed themselves into a "circle" with Nick Tattinger as president, S. E. Fisher secretary treasurer and G. H. Carney, J. L. Salmon, Herbert Wright, directors. Each member will sow about 15 lbs. of elite seed of the Marquis variety, to be purchased from Seeger Wheeler.

Blazing a Trail for the Other Provinces

Regina, Sask., March 18.—Saskatchewan will be the first province in Canada to completely abolish the bar. On July 1 next, not only will the retail sale of all intoxicating liquor come to an end, but the wholesale trade will be taken over by the government and operated by a government monopoly under a system of dispensaries. Later even these dispensaries may be abolished by a referendum vote of the province to decide.

This, in brief, is the effect of an announcement made by Premier Scott, in addressing a meeting at Orton, this afternoon, in company with J. G. Turiff, M. P. Premier Scott, after a lengthy review of the policy of his government, in dealing with the liquor question since it assumed office ten years ago, announced the present policy of his government—a policy on which it was prepared to stand or fall.

School Invites the Public

The examinations at the School of Agriculture are in progress. On Friday evening, March 20th at 8 o'clock, the closing exercises will be held at the school and the diplomas will be presented to the first graduating class. There will be present on this occasion the Hon. Duncan Marshall, minister of agriculture, Dr. Rutherford, superintendent of natural resources, C. P. R., Calgary, Dr. Shuttleworth, formerly a professor in the Ontario Agricultural College, Guelph, Ont., Wm. Moffatt, M. L. A., and others. The public are cordially welcomed to the closing exercises.

Everyone Wants Our Barley

A special dispatch to the Calgary Herald from Ottawa, on Monday last reads as follows: According to advice received by the C. P. R., the malcontents of Scotland are ready to buy at good prices all the barley which Alberta can grow, as the quality is deemed to be the best in the world. One Glasgow firm writes that that city alone would furnish a market for all the two-rowed barley grown in the entire province. The success which the farmers of Alberta have had with barley growing, and the high prices which have been obtained for it in the States, and now offered in Scotland, direct attention to this profitable crop, and much barley is likely to be grown in the immediate future, as owing to the peculiar conditions of soil and climate, Alberta has the lead in this particular crop of any other province in country.

Annual Is Journalistic Credit

An especially creditable college is that gotten out by the three schools of agriculture at Claresholm, Oils and Vermilion, jointly. The advertising sections have been liberally patronized and the enterprise is a credit to the Old Gazette which printed the Annual. The book has a section devoted to local material of interest to each of the three schools which was prepared by the students at each and respectively. Altogether the 150-page magazine is a credit to the colleges which have produced it.

Synopsis of Canadian Northwest Land
Syndicate

The sole head of a family, or any male over twenty-one years of age, may apply for a portion of available Dominion land in Manitoba, Saskatchewan, Alberta, or British Columbia to be granted in sections of at least 160 acres on the prairie, or in sections of 160 acres on the forest land. The land may be made available by the government, or by individuals, or by companies.

THE ADVERTISER FAMILY

JOB DEPARTMENT

which has been and is doing a large proportion of the Society and advertising work of this district and adding to its Satisfied Customers

PRINTING & PUBLISHING

is deservedly the Business Patronage of those who look for an Advertiser who, due to Intelligence, Individuality, Care, Attention, treatment and exertion, with good stock and prompt delivery

ADVERTISERS want in the media which they employ, many features of varying importance, and the absence of any one affects the ultimate value only to the extent of its relative importance. It is only when a wide and comprehensive circle of readers is reached that a prestige is begotten of a sympathy of aim and endeavor which gives a dignity to the printed invitation to a business relation, a reliance upon the opportunity of reception, and individuality of execution which places the message in a pleasingly attractive manner to the reader, and with these regularity increases efficiency.

It takes more than one swallow to make a Spring, and to try to persuade any unprejudiced prospector that an advertiser to forgo the advantages of a very superior circulation for the very uncertain few hours difference in issue is as futile as it is to

JUPPED by these and other advantages The Claresholm Advertiser affords the discriminating advertiser a hearing in the houses of the farmers of this district and in the houses of the townspeople. Advertised in not a billiard, or an immobile news-reading machine; it is alive to the interests of the town, district and the province and hence its added value to the advertiser.

PRINTING is an art; one does not learn to be a printer but he learns to handle the implements of his art—here again originality of design and character in its expression bulk largely. The Advertiser Job Presses ask to be judged by the quality of the paper of its printing. If you use it in your business and it is printed, give us the opportunity to figure on your next order.

For almost one entire year, from April of the past year up to the present the Advertiser has had a circulation much larger than that of its competitors, and it is now regularly a-head and contained more than double the matter.

DON'T BE A LAW-BREAKER

Again the attention of the makers and the sellers of butter is called to the Dairy Industry Act, 1914, which became effective on Sept. 1st, 1914, by which it is made an offence punishable by law to offer for sale (this applies to either the merchant or the maker), "any dairy butter packed, moulded or cut into blocks, squares, or prints and wrapped in parchment paper unless such paper is branded 'Dairy Butter'." The letters must be at least a quarter of an inch in size. The Advertiser has already sold over \$2,000 butter wrapers and is in a position to give you prompt service at right prices. It is in the interest of every maker of good butter (and who does not) to have one's own name on the wrapper as well. It is true that if you sell your butter to the storekeeper and a customer comes and asks for good butter and sees the name on the wrapper, the next time the customer will ask for Mr. So-and-So's butter and this is advertising. It is worth as much of the while of the maker of dairy butter proportionately as it is for the maker of any other commodity—the name's the thing.

CUTTING OUT DEADWOOD

Beginning with this issue, The Advertiser becomes an all-homeprint. The exigencies of the past six months throughout the province has had the effect of causing many of the weekly to make this change. The absence of the usual "ready prints" will not cause any serious loss in reading matter as the fact is that in this province, the ready prints have been coming from Regina and in bundles of a couple of weeks at a time, so the situation is one of necessity rather than general. The Advertiser will print four pages of matter as before, the reduction in size merely being the "easy print." There will also be the advantage that if more local matter becomes desired, The Advertiser will be in readiness to add other pages as the necessity may demand. There is also the advantage of holding absolute control of the advertising, which appears in our paper, which we did not have with the "ready print." We are sure that our friends will take kindly to the change.

THIS SHOULD BE ENCOURAGED

The organization of a "seed committee" in this neighborhood may be legitimately expected to result not only in personal profit to its farmer members but also to the greater good of the town of Claresholm and the district of which it is the centre. In the interests of becoming organized, it is essential that a turn or two be made in the district that should do something to keep its name periodically and insistently before the eye of the outside public. As this is a grain-growing district our publicity must be sought through grain, quality or quantity in both.

Bethem was put on the map by the Marquis wheat of Seager Wheeler. Masters of Scotland heard of Claresholm and sunny southern Alberta through the prize-winning quality of Nick Taittinger's two-row barley and the wheat-growing advantages of the soil of the Claresholm district through the defeat of the wheat of even Seager Wheeler by the exhibit of J. L. Salmon. This prize-winning became a habit. Who can foretell the advantage that will come to the district when every farmer is specializing in productivity? There will also follow the advertising result—publicity, for out of the many thus specializing will come winners of prizes and fame.

DECLARE WAR ON THE FLY

The following extract from a bulletin issued by Dr. Maheod, health officer for the city of Calgary, is so much to the point that we take the liberty to reproduce it here:

"March is the month for the people to begin individual and home work. Here and there you may find a buzzing fly around the house before the warm days come. These early flies are the parents of the army that follows, therefore, you should kill every fly you see about the house, office or workshop, early in the season. These are the flies that have lived through the winter in dark, out-of-the-way places and come to life in early spring days. They at once lay the eggs for the swarms that come from 120 to 1,000 eggs at the most time. In 10 to 14 days the new born flies are ready to begin business. This process is repeated innumerable times, so you cannot understand why it is that countless thousands of flies infest the city when no steps are taken to reduce them. We can get rid of the flies if we will work together and destroy their breeding places.

NOT EXPECTED FROM THIS SOURCE

The reception of the announcement of Premier Scott of Saskatchewan in the proposed prohibition legislation has called forth many words of commendation from those who have desired and looked for a similar announcement for a long time. Most of the prohibition sympathizers have laid aside party prejudices and have hailed this proposed prohibition measure for its own sake. But not all. Again is seen the peculiar bias which governs men politically. The criticism, issuing from temperance lips, that the measure is brought in for political advantage, that it is a vote-getting dodge, is absurd and malignant and is calculated to harm. Why?

—Dr. T. H. Blom, South Calgary.

Not So Very Complex

Bridge whilst is ordinary whilst with a wheel of fortune attachment, it is a cross between double entry book-keeping and roulette, and is played with a deck of cards, an adding machine, and a promissory note. It is listed as a game, but generally varies between a vice and a life calling.

Bridge whilst can easily be explained to anyone who knows all about ordinary whilst, compound fractions, Robert's rules of order, wireless telegraphy, nautical reading and silent signals. Just how bridge whilst got its name, no one seems to know, but it is possible that it so called because so many people get cross over it.

Bridge is a quiet and commanding game as far as the actual playing of cards is concerned, though it often resembles a stock market afterwards. For instance, at the beginning of the game, the player asks, "Shall I play, partner?" to which the answer must be "Pra-doh." This is positively the only time that prayer and bridge get in the same room together.

As a caged animal of bridge has remarked, perfection in the game is accomplished slowly, after long effort. It requires about four years of concentrated study. The first year should be devoted to learning the rules and rakes, and the conversation of the game, and the meaning of such mysteries as "chincame," "cross-ruffing," "eighth hand," "established suit," "guarded honor," and the other 99 terms which are used to fog up the beginner.

The second year should be devoted to the study of the game from the standpoint of mathematics, telepathy, psychology and astrology. The third year should be devoted to the reading and translation of books. Bridge abounds in wisdom which is permissible and highly useful. You can tell by signs what your partner thinks of you. When she lifts her eyebrows after you have played, she means "clump." When she shrugs her shoulders, she means "idiot." When she glares pleasantly, she means, "Why didn't you return my lead?" When she smiles politely while grinding her teeth, she means, "Why do I play with a dumb-bull?" It is no pleasure for a beginner to understand these signs, but it is useful. The fourth year can be profitably spent in learning the fine points of the game; for instance, when you are playing in a lady-like or gentlemanly manner. With the education thus finished, the beginner need have no hesitation in entering the most refined and exclusive circles.—From Collier's Magazine.

Not an Avail Chorus

Liberals Applaud Scott
"Good for Walter!" — Premier Sirton.

"It will help wonderfully. It comes into force just before the vote in Alberta is taken, which makes it practically certain that we shall have prohibition in Alberta as the result of the vote." — Martin Woolf, Cardston.

"It is drastic, all right, although I would vote for prohibition right on the floor of this house today. It is all right if the people want it, and I might Premier Scott has a finger on the pulse of public opinion." — Hugh J. Montgomery, Wetaskiwin. "That's the way to go after it." — E. F. Whiteside, Edmonton.

"It's a surprise, certainly. We thought we were doing the thing slick in Alberta, but they have got ahead of us." — Wm. McPhail, Clare-

holm.

Conservative Members Pleased

"The decision is a slap in the face for every member of this house, because we didn't have the gumption to say what we thought about prohibition. The matter came up last year." — Leo Headley, Okotoks.

"Let us hope. Why it simply cinders prohibition in Alberta." — Stanley, High River.

"Good, that is what I think of it. If a man does not know enough to quit drinking beer at a time like this, he should be forced to quit." — Dr. T. H. Blom, South Calgary.

A Month to Stock Show

The prize list for the forthcoming Spring Stock Shows to be held at Calgary, April 21st to 23rd, just issued, includes over \$5,000 in prizes. This generous prize list was made possible owing to assistance given by the Dominion and Provincial Governments. The prize list includes classification for the various breeds as well as agricultural and heavy draft, children's classes and special prizes offered by the Canadian and British Clydesdale Associations and the Shire Association of Great Britain. Entries close on the 10th of April. An auction sale of horses will also be held on the last day of the show. The judging will take place in the morning and afternoons, no show animals will be held in the evening. Saddle and driving classes have therefore been discontinued for this year.

The auction sale and show of pardoned bulls will be held at the same time. Over 350 pardoned bulls will be offered for sale. Special arrangements have been made for the transportation of both cattle and horses, and special passenger rates have been secured for the return trip for Alberta points. Prize list and catalogues may be had from E. L. Richardson, secretary, Alberta Live Stock Association, Calgary.

B. A.'s to Serve the Guns

Toronto University is furnishing her share of recruits for King's Guard and country and fathers and mothers of the best homes in Toronto are making the greatest sacrifice for the empire's need. On Thursday last, the University Corp Field Artillery of over 60 students forming a unit, left the university and their homes for Ottawa, the company having been organized but the week before. Four hundred of the students were taking a special course for infantry non-commissioned officers and were to have written on their exams in a day or so but so strong was the appeal of the war office for university students for the artillery when both technical knowledge and intelligence are needed, that these boys of the 60 had not time to sit through their exams. The cream of the university had enlisted. Among those who left with this corps are Charlie Harris, a son of Dr. Harris of Parkdale who had been taking his course in art and medicine and Charlie C. Martin, who was completing his arts and entering upon the course in law. The latter is a nephew of Mrs. H. Duncan.

Bridge is a quiet and commanding game as far as the actual playing of cards is concerned, though it often resembles a stock market afterwards. For instance, at the beginning of the game, the player asks, "Shall I play, partner?" to which the answer must be "Pra-doh." This is positively the only time that prayer and bridge get in the same room together.

As a caged animal of bridge has remarked, perfection in the game is accomplished slowly, after long effort. It requires about four years of concentrated study. The first year should be devoted to learning the rules and rakes, and the conversation of the game, and the meaning of such mysteries as "chincame," "cross-ruffing," "eighth hand," "established suit," "guarded honor," and the other 99 terms which are used to fog up the beginner.

The second year should be devoted to the study of the game from the standpoint of mathematics, telepathy, psychology and astrology. The third year should be devoted to the reading and translation of books. Bridge abounds in wisdom which is permissible and highly useful. You can tell by signs what your partner thinks of you. When she lifts her eyebrows after you have played, she means "clump." When she shrugs her shoulders, she means "idiot." When she glares pleasantly, she means, "Why didn't you return my lead?" When she smiles politely while grinding her teeth, she means, "Why do I play with a dumb-bull?" It is no pleasure for a beginner to understand these signs, but it is useful. The fourth year can be profitably spent in learning the fine points of the game; for instance, when you are playing in a lady-like or gentlemanly manner.

With the education thus finished, the beginner need have no hesitation in entering the most refined and exclusive circles.—From Collier's Magazine.

Prairie View

Mrs. Walter Kerman, who has been visiting her parents, Wm. and Mrs. Best, left for her home in Bem Brandon on Sunday.

Bert Benson is drilling a well for water on his place. It is hoped that he will meet with success in his search.

W. J. and Mrs. Lebow celebrated the 12th anniversary of their marriage on Thursday evening of last week. A number of guests enjoyed the evening spent in the home of the bridegroom's parents and the bride and her mate were the recipients of the warmest congratulations and wishes for their continued health and prosperity.

Will Lead Home the Prizes

It has been arranged that on the afternoon of Friday, there shall take place at the School of Agriculture, the distribution of the prizes won by the competitors in the recent dairy-cow contest. The presentations will doubtless be made by the minister of agriculture.

A Few Local Notes

It is a crime against the town of Claresholm to park your automobile on the boulevard(s). These at the corner of the street and the boulevard(s) are the responsibility of the city. Ask to see an order of the court giving the power to collect accounts, contracted prior to the above date, before making payment.

Exceptional Opportunity For All Our Readers . . .

The publishers of The Advertiser are pleased to be able to announce to you that they have now completed arrangements which enable them to make a most attractive offer to their readers.

Everybody is keeping posted on the Great War now being waged in Europe. Realizing the value of news from the war zone are shown, and also many exclusive photos of our Canadian troops in the Volunteer Camp, etc., Embarking for the Front, and in their doings across the water, with other features of especial interest to Canadians.

This publication has an attractive cover printed in three colors and twenty pages of pure news from the war zone, in weekly parts. It is well printed on good paper, size 9 x 12, 25 cents extra for binding.

Many prominent Canadians are reading "The War Pictorial" among the number being such men as:

HON. G.H. E. FORTIN, SIR WILLIAM VAN HORNE, SIR WILFRED LAURIER, etc., etc.

Uncle Sam Is Generous

Statistics concerning the relief afforded the inhabitants of Belgium up to the end of the month of January give the total of contribution of money and provisions as follows: From the United States, \$6,300,000; from Great Britain, \$921,000; from Canada, \$800,000; from New Zealand, \$500,000; from Australia, \$500,000; from Spain and Italy, \$20,000 each.

The use of epidemics and diseases from the power houses has made a vast improvement on the upper end of Third Ave. More of the same treatment at this stage would turn some of the important streets from quagmires to thoroughfares.

D. P. Williams put through the sale of 38 head of young steers to Tom Guy, of the Queen's Hotel, on Saturday and delivery was made on Monday. The cattle were purchased from Jake Byers, of Gramma, and Mr. Guy has added them to the stock already on his farm south of Stavely.

The prize list of the 14th Alberta Spring Horse Show at Calgary has just come to hand. The show will be held April 21st to 23rd. The 3rd annual auction sale of horses will take place the morning of the 23rd and the auction sale of pure-bred bulls on the 22nd.

Must Do Without This Year

In connection with the recent meeting addressed by W. F. Stevens when the matter of "Community Breeding" was enthusiastically taken up, J. R. Watt communicated with the Government Live Stock Council of Ottawa and obtained particulars regarding the distribution of pure-bred bulls. Unfortunately, it is too late for this year to get any Government pure-bred bulls into this District. The Com. misfortune said in his letter "I regret to have to advise you however, that the community business since my appointment in February, 1914, has been so great that we have not been able to get any Government pure-bred bulls into this District. The Com. misfortune said in his letter "I regret to have to advise you however, that the community business since my appointment in February, 1914, has been so great that we have not been able to get any Government pure-bred bulls into this District. The Com. misfortune said in his letter "I regret to have to advise you however, that the community business since my appointment in February, 1914, has been so great that we have not been able to get any Government pure-bred bulls into this District. **HAVE YOU PAID YOUR SUBSCRIPTION YET?****Kansas Nailed the Lie**

The legislature of the state of Utah have before them a measure looking toward state prohibition. A very vigorous lobby is exerting its strongest influence against its passage. So-called Kansas lobbyists are urging the plan that Kansas was not satisfied with the working of the prohibition legislation which that state had had for several years. This came to the ears of the legislature of Kansas while in session. A resolution was immediately passed affirming the complete satisfaction with which the prohibition law was working out in their state and asserting that Kansas would not consider for a moment any movement toward a return to the license system and further ordering that a copy of the resolution be sent to every state legislature in the Union then in session. By this means is nailed the insinuation of the lobbyists that Kansas is tired of prohibition.

Walter Harvey won the \$5.00 prize for submitting the best design for the cover of the College Annual this week, bearing date Feb. 25th, spike of the cavalry as yet in England. A card received from the editor from "Dul" Munro, was postmarked in France. A letter from the brother of the editor, who with the second brigade artillery dated Feb. 20th, was from France and while the brigade had not been actually in the firing line since that date, they could hear the guns and there was mute evidence that the blustering breath of war had passed over the country.

More Advanced Legislation

Edmonton, Alta., March 23.—Premier Stimson introduced a bill yesterday afternoon providing for the establishment of a public utilities commission in Alberta, composed of three members to combine the provincial utility commission in Manitoba and the government board of Saskatchewan. The act, a lengthy one, confers power on the commission, which will have control over utilities and over the recording of land titles and other undertakings. It will be a board of 15 men to do a big job, and this will constitute one of the most important pieces of legislation of the session.

Walter Harvey won the \$5.00 prize for submitting the best design for the cover of the College Annual this competition was open to the students of the three schools of agriculture and was won by a student of the Claresholm school.

At Home and Abroad

Claude Amundsen was a Calgary allied from continuing the operations in the Dardanelles.

Nick Tattinger went on a business trip to Calgary on Monday night.

Mrs. Garner made a visit to Edmonton on Monday.

Alberta has no floating debt and no debentures falling due before 1922.

Swat the manure heap and you swat the fly. Swat the fly and you swat disease.

Major James, commanding "B" road, 13th C. M. R., spent the weekend at his home here.

BORN—On Monday, March 22nd, to Frank and Mrs. Teeter, a daughter.

Give the boys in the home a cent a fly killed now and see what happens later.

It is reported that the Rex Theatre has changed hands, the purchaser being Mr. Rogers, a brother of Mrs. R. M. Larkin.

E. A. Howes, principal of the Vermilion School of Agriculture, paid the school here a visit on Saturday.

Mrs. F. G. Atkinson and little daughter, Grace, left on Thursday night for Calgary where they will reside.

J. S. Proven, of the 31st Battalion in training at Calgary, spent the weekend with friends in Claresholm.

Over 35 young people enjoyed last Friday evening in whilst as the guests of R. E. and Mrs. Moffatt. The prizes were won by Jack McNeil and Miss Frank.

John D. Hunt, who has resigned as deputy attorney-general, has been appointed clerk of the executive council and law clerk to the legislative assembly.

Geo. Adams and Larry Bell, both with the 13th C. M. R. at Macleod, arrived on Friday evening and spent the weekend with friends.

The latest Alberta Gazette announces the retirement of C. W. James as stock inspector and the appointment of J. E. Moffatt in his stead.

The house known as the Gardiner's cottage, is being renovated and prepared for occupancy by Dr. A. S. McMillan, of Gramma, who is taking up medical practice in this town.

Spring is in the air. The big black flies are beginning to stretch themselves. Would not be better to start that clean-up a little earlier this year and the swat-the-fly campaign will not be so hopeless later.

Squadron Sergeant-Major W. J. Moorsehead, formerly Corp. Moorsehead, of the R. N. W. M. P., now with the 13th C. M. R. at Macleod, came up on Friday night and spent a few days with friends here.

Win. Lister, formerly of the staff of The Advertiser, made a business journey to Clive and Edmonton, leaving on Tuesday morning. Mr. Lister will inspect newspaper plant with the object of purchase, while away.

Geo. Beatty had the misfortune to lose a valuable Clydesdale mare on Sunday. The animal fell in a wall and was dead when she was gotten out. The loss represents \$350 as the mare was valued at that figure.

From "Parade" to "War."

A card received from E. T. Gray this week, bearing date Feb. 25th, spoke of the cavalry as yet in England. A card received from the editor from "Dul" Munro, was postmarked in France and while the brigade had not been actually in the firing line since that date, they could hear the guns and there was mute evidence that the blustering breath of war had passed over the country.

The War in Paragraphs

Bad seaworthy has prevented the allied fleets from continuing the operations in the Dardanelles.

The loss of the Irresistible and Ocean in the Dardanelles recall the fact that they were of the pre-dreadnought type and that at the beginning of the war Britain had 40 of these ships to Germany's 20.

A report by the secretary of the British admiralty says: "We have every reason to believe that the German cruiser Karlsruhe was sunk in the neighborhood of the West Indies at the beginning of November."

Winston Churchill says: "We could not lose a pre-dreadnought every month for twelve months, without any loss occurring to the enemy, and still be in approximately as good a position of superiority as we were at the Declaration of war." Cheer up, faint hearts!

Przemysl has fallen. The key to the plains of Hungary is now in the hands of the Russians, the way is open for an advance on Craiova and into the German provinces of Silsia. Besides a large Russian force is released to strengthen the operations in Poland and in the Carpathians.

As the successes of the allied fleet in the Dardanelles has stung Italy and Greece almost to the point of action, so the fall of Przemysl may be expected to stir Rumania and Bulgaria into action. For success will spell the downfall of the Turks and these smaller powers must participate in the fighting if they desire to participate in the division of the spoils.

The British parliament has passed a law clothing the government with power to commandeer any factory or manufacturing plant, no matter in what industry it may have been engaged, and to transform it into an establishment for the manufacture or maintenance of war. This action has pleased the socialists as it is one of the powers which they have advocated that the government should have.

It may encourage the Timorous who are fearing for the supremacy of the British fleet as losses are recorded of British ships in the present war while Germany's fleet sails safely behind the guns of the shore forts, to be informed that in the event that will add three battleships to the German fleet, namely, the *Brandenburg*, the *Derfflinger* and the *Tirpitz*. In 1916, Britain will have added to her fleet 15 and each will be equal to the most powerful monsters afloat and six of them will be greater.

It is best to put your money in a Savings Bank Account from time to time, because interest is safe; secondly it is readily available in cash; third—the interest is certain and prompt.
